MAGIC MOBILE SECURITY

Conjuring Up Some Peace of Mind for Businesses Operating in Today's Bring-Your-Own-Device Environment...

More than ever before, companies are choosing to allow their employees to use personal devices for accessing to the corporate network. Smartphones and tablets alike are flooding the workplace, and as a result, companies must find a way to keep their corporate network secure against threats. That's where mobile device management comes in.

Data Magic has the potion you need to stay secure. Our solution, Magic Mobile Security, is an easy-to-use cloud platform that contains all of the essential functionality for end-to-end management of mobile devices. Call (469) 635-5500 or email us at datamagic@datamagicinc.com to find out more.

Magic Mobile Security enables you to provide fast and secure access to corporate data from all devices. You'll benefit from simplified deployment options, advanced management and security features, intuitive workflows, and the industry's broadest device support, including:

- **iPhones**
- **iPads**
- **Androids**
- **Kindle Fires**
- **Windows Phones**
- **BlackBerry Phones**

Getting started is absolute wizardry, too! A few simple clicks and you're ready to start enrolling devices – covering all the bases, such as enterprise integration, configuration and management, monitoring and security, support, and analytics/reporting.

DATA MAGIC COMPUTER SERVICES

You're able to rest assured knowing you have:

- Powerful, secure management of mobile devices
- Secure containers successfully separating work from play
- Alerts for jailbreaking and/or device rooting
- Direct technical support whenever necessary for questions and/or issues
- Geo-fencing capabilities to track smartphone activity
- Remote wipe, lock, and locate for lost or stolen devices
- Instant discovery of devices accessing corporate systems
- And much more!

No, this isn't some kind of sorcery! You CAN give your employees the freedom to be productive from any device – without sacrificing the livelihood of your business.

If you're not securing your corporate network while allowing employees access from personal devices, you're leaving all of your vital, confidential data at risk for cybercriminals. But here's the thing... Your employees WANT to maintain one device and one device only – so let them!

Give them access to their corporate email and their personal social media, all on the same device, without sacrificing the livelihood of your business. Our solution makes it easier than ever before. On YOUR terms. At an affordable cost:

- **Monitored: $6/month**
- **Managed: $10/month**
- **Application Managed: $15/month**

Just wave your wand (or pick up your phone) to get ahold of us.

Call (469) 635-5500 now to talk more about what our mobile device management solution can do for you.
